

Learn how to Cool Your World with
ENERGY STAR®
@home

You can save up to \$150 each year on energy costs when you use a programmable thermostat properly. For example, every degree that you set your thermostat up in hot weather will save you about 2% on your cooling bill.

For more tips, advice and energy know-how, come take the ENERGY STAR® home tour at www.energystar.gov/home.

X is offering its customers a smart way to stay cool and comfortable this summer with a mail-in rebate on the purchase of an ENERGY STAR qualified programmable thermostat. For details, visit XXXX.com or call (555)123-4567.

Products that earn the ENERGY STAR® prevent greenhouse gas emissions by meeting strict energy efficiency guidelines set by the U.S. Environmental Protection Agency and the U.S. Department of Energy. To learn more visit www.energystar.gov.
